

A trusted label to help you grow

BakeHaven™ was designed with partnership in mind. Ardent Mills has developed this manufacturers' private label for when you do not have the resources to either create or reach standard packaging minimums for your own private label brand. This solution has been consumer tested and provides an opportunity for us to support your growth in the baking aisle.

Inspiration Behind the Brand

We believe that every kitchen should be a place of nourishment, where new recipes and old family favorites can come to life. BakeHaven has the quality grains and flours you need to make the foods you and your family love.

Create new traditions with BakeHaven.
